

WORKING IN BECKWITH PASS

Surveyors on Western Pacific Active.

Trying to Secure the Best
Grade Possible Over the
Sierra Range.

Details of the Route of Projected
Road Through Mountains of Cali-
fornia Given to Public.

Some very important work is now being done by the corps of surveyors of the Western Pacific Railway company now employed in Beckwith Pass and in the vicinity of Mohawk valley. Engineer Harlowe, in charge of the survey, has just completed the survey of the Sierra range, and has recently completed his work and it is understood that the results secured are very satisfactory. He and his assistants returned to Quincy the first of this week to enter upon the work allotted to them.

Engineer Arnold has been making surveys in Delaney canyon with the same general object in view of obtaining the best possible line. Whether he will make further investigation in Delaney canyon we are not able to learn.

It is also stated that Engineer Norris, now in the employ of the Western Pacific, is running a low grade line down the North Fork from Boulder Creek canyon toward Orem.

This concentration of survey work on the most difficult portions of the route shows a determination to secure the best grade possible across the Sierras. That previously obtained was lower than that of a route up through American valley and Spring Garden, endeavoring to secure the best possible line not above the maximum of 1 per cent. This engine has just completed the survey of a low grade line through Beckwith Pass to Alkali Flat in Nevada. It is said that the results secured are very satisfactory. He and his assistants returned to Quincy the first of this week to enter upon the work allotted to them.

Railroad Notes.

The Western Pacific seems to be very much active.

The school party will arrive in San Francisco tomorrow.

General Superintendent J. H. Young was at his desk yesterday.

On the desert the track was observed by many of the track building.

The Chicago & Alton has practically rebuilt its St. Louis-Chicago line.

George W. Vallery, general manager of the Midland, is in the city on a short day's hunting expedition.

Thanksgiving was observed as a holiday in most of the offices although many of the officials were down early in the morning.

It is again rumored that A. E. Welby is to return to the Rio Grande. Many railroad men, however, seem to incline to the belief that an Eastern railroad man, say from the Illinois Central, will come to the Rio Grande.

The headquarters of the president of the Colorado & Southern road will be located in Chicago after January 1, 1905. Frank Trumbull of Denver, who holds that important office at present, will move his temporary home to Chicago.

The practical work of direction on the Colorado & Southern will be placed upon Vice-President and General Manager J. M. Herbert. St. Louis Globe-Democrat.

Michigan Builds Churches.

BAY CITY, Mich., Nov. 24.—Thirty-five new churches are to be built within the next few months in the Bay City district of the Methodist Episcopal church. One of them in Greenbush, Alcona county, and another in Biagas, Oscoda county, will be dedicated within the next thirty days.

WRANGLING
An Old Couple's Troubles.

There is an old couple of Hillsdale, Kansas, the husband 71 and the wife 67, who made a discovery late in life that would have saved lots of their troubles, something they learned about diet.

The old gentleman says: "One day the doctor told me my wife's trouble was not heart disease but her stomach, but she thought he was mistaken. As I had read several statements in the papers about Postum Food Coffee my mind was soon made up, and it was in the Fall of 1904 that I got a little coffee of Postum, asking my wife to try it."

"She said she did not believe it would help her, and so it was laid aside and she suffered all the winter, drinking coffee all the time until about the first of May, when she was in terrible distress."

"One night about our bed time she said she must have the doctor, but before you go fix a little Postum and I will try it."

"So I prepared half a pint of Postum according to directions, and as soon as she had drunk it she felt warm and nourished all over, and in a little while her pain was gone, it was like magic. For a few months she used a little coffee, and then a wrangling began in her stomach each time, so finally she gave up coffee altogether and used Postum only. Better and better she got and grew stronger and finally all the old disease left."

"Since that time we have used nothing but Postum, nor have we had any occasion to call for the doctor since, and I now advocate Postum to everyone I meet." Name given by Postum Company, Battle Creek, Mich.

"So many people say, 'Coffee don't hurt,' and then tell you they 'know a man 70 years old who has drunk it all his life.' That doesn't prove that you can drink it. 'One man's meat is another's poison.' If coffee agrees and the drinker keeps well, stick to it, but if any kind of ailment or disease shows, better heed the warning and quit coffee."

"There's a reason."

Look in each pkg. for the famous little book, "The Road to Wellville."

LOW WATER ALARMS.

Engineering Department Michigan University Condemns Their Use.

ANN ARBOR, Mich., Nov. 24.—Prof. M. E. Cooley, dean of the engineering department of the University of Michigan, has condemned the use of automatic low water alarms with which a Michigan statute required all stationary engines to be equipped.

Prof. Cooley stated that he had advised companies by whom he had been employed as consulting engineer not to comply with the law. He declared that the danger of explosion is greater where these alarms are used for the reason that none of them are perfect, the best of them clogging up and becoming useless from dirt, the action of water and other causes and that persons in charge of boilers equipped with these so-called alarms rely on the apparatus to give notice of danger and thus increase the chances of explosion and disaster.

Prof. Cooley expressed the emphatic opinion that the law in question should be repealed by the next Legislature.

CHINESE REFORM ARMY.

Officers Being Recruited From Oregon National Guard.

PORTLAND, Or., Nov. 24.—The Oregonian prints the following today:

Officers for the Chinese reform army are being recruited from the National Guard of this State, and it is said that already about twenty-five members, some of them locally prominent, have made application. Trained officers to the number of 800 are being sought by the reform association.

All who make application are bound to secrecy. But it is claimed that such is the demand for the service, that the pay is to be 20 per cent greater than that of American officers in the tropics. The applicants have been told that the army they are to command will number 150,000.

Four Men Drown.

PORT HURON, Mich., Nov. 24.—The rowboat of William Briggs, night ferryman between this city and Sarnia, Ontario, which is directly across the St. Clair river from here, was upset near the Sarnia dock and four men from St. Thomas, Ontario, who were passengers, were drowned.

THE VALUE OF CHARCOAL

Few People Know How Useful It is in Preserving Health and Beauty.

Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleansing purpose.

Charcoal is a remedy that the more you take of it the better. It is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system.

Charcoal sweetens the breath after smoking, drinking, or after eating onions and other odorous vegetables.

Charcoal effectively cleans and improves the complexion, it whitens the teeth and further acts as a natural and eminently safe cathartic.

It absorbs the injurious gases which collect in the stomach and bowels; it disinfects the mouth and throat from the poison of catarrh.

All druggists sell charcoal in one form or another, but probably the best charcoal and the most for the money is in Stuart's Charcoal Lozenges, they are composed of the finest powdered Willow charcoal, and other harmless antiseptics in tablet form or rather in the form of large, pleasant tasting lozenges, the charcoal being mixed with honey.

The daily use of these lozenges will soon tell in a much improved condition of the general health, better complexion, sweeter breath and purer blood, and the beauty of it is, that no possible harm can result from their continued use, but on the contrary, great benefit.

A Buffalo physician, in speaking of the benefits of charcoal, says: "I advise Stuart's Charcoal Lozenges to all patients suffering from gas in stomach and bowels, and to clear the complexion and purify the breath, mouth and throat. I also believe the liver is greatly benefited by the daily use of them; they cost but twenty-five cents a box at drug stores, and although in some sense a patent preparation, yet I believe I get more and better charcoal in Stuart's Charcoal Lozenges than in any of the ordinary charcoal tablets."

"That Good Coal"

GIVES US ANOTHER REASON FOR THANKSGIVING DAY.

CALIFORNIA FOR HEALTH.

Mild Climate, Rare Medical Springs and Charming Scenery.

There are many conditions of the body in which a change of environment is far more valuable as a remedial agent than all the medicine that can be prescribed.

California is peculiarly fitted to give all that nature can give in this direction. To the newcomer the environment is so strange and so striking that it claims the undivided attention. Everywhere and all the time there is something strange and interesting to see.

Of climatic conditions the invalid has a wide range of choice. In elevation from about 300 feet below sea level to 6000 to 7000 above; in humidity from the moist sea breezes of the coast to the dry, invigorating air of the inland mountain ranges; in temperature, from the almost perpetual summer of the southern part of the State to the more severe, though not unpleasant climate of the upper Sierras.

In addition to all this, there are numerous mineral springs, many of them having marked medicinal qualities, which have already won for them a wide reputation. At some of these sanitariums have been erected, and all the conveniences of modern civilization are at hand.

There, too, one can enjoy a more healthful and varied diet than is accessible in any other locality. Fresh fruits and vegetables the year round; an abundance of wild game and meats that are nutritious and highly flavored. A climate where even a delicate person can, with no fear of taking cold, spend ten or twelve months in the open air, needs few accessories in the work of restoring impaired health or vitality.

Great numbers of semi-invalids already go to California to escape the cold of the Eastern winters, and find to their constant surprise that a greater part of a California winter is almost an exact counterpart of the balmy days of an Eastern spring.

For descriptive and illustrative literature, call on or address Dr. R. Gray, general agent Southern Pacific, corner of Chicago and 201 Main street, Salt Lake City, Utah.

H. F. Williams, the carpenter, makes or repairs anything in woodwork. 71 South State. Bell 2145-K; Ind. 241.

McCoy's livery stable for carriages and light livery. Telephone 81.

SKIN DISEASES

Altoona, Pa., June 20, 1903.

I was afflicted with Tetter in bad shape. It would appear in blotches as large as my hand, a yellowish color, and scale off. You can imagine how offensive it was. For twelve years I was afflicted with this trouble. At night it was a case of scratch and many times no rest at all. Seeing the good the medicine was doing a friend who was taking it for Eczema, I commenced it, and as a result the eruption began to dry up and disappear, and to-day I am practically a well man. Only two tiny spots are left on the elbow and shin, where once the whole body was affected. I have every confidence in the medicine, and feel sure that in a short time these two remaining spots will disappear. S. S. S. is certainly a great blood purifier, and has done me a world of good. I am grateful for what it has accomplished, and trust that what I have said will lead others who are similarly afflicted to take the remedy and obtain the same good results that I have.

NELDEN-JUDSON DRUG CO., General Agent. SALT LAKE CITY, UTAH

THE SALT LAKE TRIBUNE

KRUGER LEFT FORTUNE OF THREE MILLIONS

AMSTERDAM, Nov. 24.—Paul Kruger, the late President of the Transvaal republic, left a fortune estimated at \$3,750,000. He bequeathed \$125,000 to various societies in Holland and sums to all the funds opened after the South African war for the support of the Boer widows and orphans. Bequests also were made for the maintenance of the Dutch language.

BONE AND DUCK.

Two Footpads Bearing These Names
Sentenced to Prison.

OMAHA, Nov. 24.—Two footpads failed to hold up a man who formerly worked with them, and who is well known in the underworld. When they pushed a revolver into his face under the Tenth street viaduct he laughed at them.

"Hello, Bone," he exclaimed. "Hello, Duck! Come on; let's go and take something!"

Then they went off to a saloon and were celebrating when arrested as suspicious characters.

Two of the men were sent up for thirty days for vagrancy. They were the men who tried to hold up Harvey Ryan, whose name is "Red Mike."

He refused to prosecute them on the charge of robbery. After they had been sentenced he told the story of the attempted hold-up to Captain Moslyn. The names of the prisoners are "Erico Bone and Davey Duck."
